STATEMENT ..... 1

ARGUMENT ..... 5

I. PLAINTIFF HAS NOT SHOWN THAT THE CIA HAS MISAPPLIED ANY OF THE STATUTORY EXEMPTIONS ..... 5

    A. THE NAME "RANDOLPH M. TAUSS" MAY BE WITHHELD PURSUANT TO EXEMPTION 3 BECAUSE NO ASSOCIATION BETWEEN THE RESPONSIVE RECORDS AND ANYONE SO NAMED HAS BEEN OFFICIALLY DISCLOSED AND BECAUSE EQUITABLE BALANCING IS GENERALLY INAPPLICABLE TO EXEMPTION CLAIMS UNDER FOIA ..... 5

    B. THE TECHNICAL INFORMATION CONCERNING THE BOEING 747-100 MAY BE WITHHELD PURSUANT TO EXEMPTION 4 BECAUSE THE INFORMATION HAS NOT BEEN RELEASED PREVIOUSLY AND BECAUSE DEFENDANTS HAVE MADE A SUFFICIENT SHOWING THAT THE RELEASE OF THE INFORMATION COULD CAUSE COMPETITIVE INJURY TO BOEING ..... 9

    C. THE MATERIAL WITHHELD IN ALLEGED VIOLATION OF EXEMPTION 5 HAS BEEN WITHHELD PROPERLY BECAUSE THE MATERIAL IS PREDECISIONAL ..... 15

    D. NO ISSUE EXISTS AS TO WHETHER THE JOB TITLES OR JOB DESCRIPTIONS OF FEDERAL EMPLOYEES MAY BE WITHHELD PURSUANT TO EXEMPTIONS 6 AND 7(C) BECAUSE NO SUCH MATERIAL HAS BEEN WITHHELD ... 17

II. PLAINTIFF HAS NOT SHOWN THAT DEFENDANTS' MOTION FOR PARTIAL SUMMARY JUDGMENT SHOULD BE DENIED FOR ANY REASON OTHER THAN THE ALLEGED MISAPPLICATION OF THE STATUTORY EXEMPTIONS ..... 18

1 & Doc. Index (DI) at 41-70 ; 2<sup>nd</sup> Bur. Decl. ¶¶ 11, 13, 18 & DI at 16-17; Koch  
2 Decl. ¶ 23. These records have been referred to the agencies from which the  
3 information was obtained for advice on its treatment. *See* Bur. Decl. ¶ 12.

4  
5 Pending receipt of such advice, the records have been withheld in full. *See id.* n.3.

6 Defendants, the CIA and the National Transportation Safety Board (NTSB),  
7 moved for summary judgment as to the NTSB in June 2004. In August 2005, they  
8 moved for partial summary judgment as to the CIA. Alleging that the CIA has  
9 conducted a sufficient search for records and has applied the statutory exemptions  
10 correctly, defendants ask that all claims against the CIA be dismissed, except any  
11 claim involving the application of the statutory exemptions to any record, created  
12 by the CIA, still undergoing review. Mem. P. & A. Supp't Defs.' Mot. at 8-25.

13  
14  
15  
16 Plaintiff does not challenge the sufficiency of the search for records that the  
17 CIA has conducted or, for the most part, the manner in which the statutory  
18 exemptions have been applied. Instead, he alleges that FOIA Exemption 3 may  
19 not be relied upon to withhold the name "Randolph M. Tauss" because an  
20 individual so named had been identified in a newspaper article as a "CIA analyst";  
21 that FOIA Exemption 4 may not be relied upon to withhold certain technical  
22 information concerning the Boeing 747-100 because certain such information has  
23 been released previously and because a sufficient showing has not been made that  
24  
25  
26  
27  
28

1 the release of the information could cause competitive injury to the Boeing  
2 Company (Boeing); that FOIA Exemption 5 may not be relied upon to withhold  
3 certain material allegedly covered by the deliberative process privilege because the  
4 material withheld is postdecisional; and that FOIA Exemptions 6 and 7(C) may  
5 not be relied upon to withhold the job titles or job descriptions of federal  
6 employees. Pl.'s Opp'n CIA's Mot. Partial Summ. J. (Pl. Mem.) at 16-22.  
7  
8 Plaintiff also alleges that defendants have not made a sufficient showing that all  
9 non-exempt material has been released and that numerous deficiencies exist in the  
10 CIA's production of records and in the materials that defendants have filed in  
11 support of their motion for partial summary judgment. *Id.* at 22-28.  
12  
13  
14

15       These allegations are without merit. As a threshold matter, plaintiff has not  
16 shown that the CIA has misapplied any of the statutory exemptions. The name  
17 "Randolph M. Tauss" may be withheld pursuant to Exemption 3 because no  
18 association between the responsive records and anyone so named has been  
19 officially disclosed and because equitable balancing is generally inapplicable to  
20 exemption claims under FOIA. The technical information concerning the Boeing  
21 747-100 may be withheld pursuant to Exemption 4 because the information has  
22 not been released previously and because defendants have made a sufficient  
23 showing that the release of the information could cause competitive injury to  
24  
25  
26  
27  
28

1 Boeing. The material withheld in alleged violation of Exemption 5 has been  
2 withheld properly because the material is predecisional. No issue exists as to  
3 whether the job titles or job descriptions of federal employees may be withheld  
4 pursuant to Exemptions 6 or 7(C) because no such material has been withheld.  
5

6 In addition, plaintiff has not shown that defendants' motion for partial  
7 summary judgment should be denied for reasons other than the alleged  
8 misapplication of the statutory exemptions. All non-exempt material has been  
9 released, and no deficiency exists in the CIA's production of records or in the  
10 materials upon which defendants rely in moving for partial summary judgment.  
11 Defendants' motion should therefore be granted.

ARGUMENT

I. PLAINTIFF HAS NOT SHOWN THAT THE CIA HAS MISAPPLIED ANY OF THE STATUTORY EXEMPTIONS.

A. THE NAME "RANDOLPH M. TAUSS" MAY BE WITHHELD PURSUANT TO EXEMPTION 3 BECAUSE NO ASSOCIATION BETWEEN THE RESPONSIVE RECORDS AND ANYONE SO NAMED HAS BEEN OFFICIALLY DISCLOSED AND BECAUSE EQUITABLE BALANCING IS GENERALLY INAPPLICABLE TO EXEMPTION CLAIMS UNDER FOIA.

In an article published on December 5, 2003, the Washington Times said the following about "Randolph M. Tauss":

The CIA recently declassified a once-secret report on eyewitnesses to the crash of TWA Flight 800 off Long Island, N.Y., on July 17, 1996. CIA analyst Randolph M. Tauss, who won an intelligence medal for his work on the crash, concluded that numerous eyewitnesses who saw a streak of light heading toward the Boeing 747 jetliner were wrong if they believed it was a surface-to-air missile going toward the jet.

Based on sound-travel analysis and a spy satellite sensor, Mr. Tauss stated: "Any eyewitness who thinks he may have seen a missile shoot down Flight 800 needs to have seen something that occurred more than 42 seconds before the aircraft broke into 'two distinct

1 fireballs' and more than 49 seconds before the plane hit the water," he  
2 wrote. "CIA analysts are not aware of any eyewitness who did."

3  
4 Evidence that the streak was burning fuel from the aircraft,  
5 which is believed to have exploded shortly after takeoff from a spark  
6 inside a center-wing fuel tank, is "extensive and compelling," Mr.  
7  
8 Tauss stated.

9 "Nevertheless, a few people, driven by what they perceive to be  
10 an overwhelming number of eyewitnesses who 'saw' a missile attack  
11 the plane, persist in thinking otherwise," he said. "Confident that so  
12 many eyewitnesses cannot be 'wrong,' they have concluded that the  
13 government, for whatever reason, is covering up the true cause of the  
14 crash."  
15  
16

17  
18 Lahr Aff. at 30.

19 The names of CIA employees are exempt from release under Exemption 3  
20 and 50 U.S.C. § 403g. *Minier v. CIA*, 88 F.3d 796, 801 (9<sup>th</sup> Cir. 1996). In this  
21 case, the CIA has relied on Exemption 3 and § 403g to withhold the names of  
22 certain CIA employees. Bur. Decl. ¶ 27; *see, e.g., id.* DI at 41. Speculating that  
23 one of those employees is an individual named Randolph M. Tauss, plaintiff  
24  
25  
26  
27  
28

1 alleges that the withholding of that name would be improper in view of the above  
2 article. Pl. Mem. at 22.

3  
4 Plaintiff is mistaken. The disclosure of information that has been  
5 “officially acknowledged” may be compelled, “even over an agency’s otherwise  
6 valid exemption claim.” *Fitzgibbon v. CIA*, 911 F.2d 755, 765 (D.C. Cir. 1990).

7  
8 However, “official acknowledgment” requires that “the information requested  
9 \* \* \* match the information previously disclosed.” *Id.* Among other things, the  
10 “official disclosure” of information does not “waive the protection to be accorded  
11 information that pertain[s] to a later time period.” *Id.*

12  
13 In this case, the article in the Washington Times refers to certain statements  
14 allegedly made by Randolph M. Tauss in a “once-secret report.” However, the  
15 “‘once-secret’ report is not among the documents that are responsive to Plaintiff’s  
16 [FOIA] request.” 2<sup>nd</sup> Bur. Decl. ¶ 9. In addition, none of the records from which  
17 the CIA has withheld the names of CIA personnel has been “previously released to  
18 the public.” *Id.* Accordingly, any association between the responsive records and  
19 an individual named Randolph M. Tauss “has not been officially disclosed.” *Id.*

20  
21  
22 In view of the foregoing, “the information requested [does not] match the  
23 information previously disclosed” even assuming, *arguendo*, that the “information  
24 requested” is the name “Randolph M. Tauss.” *See Fitzgibbon*, 911 F.2d at 765.

1 Accordingly, plaintiff is mistaken when he alleges that the withholding of that  
2 name would be improper in the context of this lawsuit.

3  
4 Nor would the release of the name be required by the allegation of plaintiff  
5 that “[t]he Ninth Circuit has consistently applied the equitable balancing test to all  
6 exemption claims under the FOIA.” Pl. Mem. at 10. In making this allegation,  
7 plaintiff places principal reliance on *GSA v. Benson*, 415 F.2d 878 (9<sup>th</sup> Cir. 1969).  
8 *See id.* at 10-11. However, *Benson* “merely recognized that where documents  
9 normally privileged in the civil discovery context are involved, courts may employ  
10 in exemption 5 cases the same equitable principles that they may use to fix the  
11 scope of discovery in civil litigation against an agency.” *Maricopa Audubon*  
12 *Soc’y v. U.S. Forest Serv.*, 108 F.3d 1082, 1088 n.4 (9<sup>th</sup> Cir. 1997). Accordingly,  
13 “equitable discretion” to resolve exemption claims under FOIA does not exist  
14 except to the limited extent recognized in *Benson*. *Id.* at 1088 n.4. The lack of  
15 such discretion results from the fact that Congress ““created a scheme of  
16 categorical exclusion”” when it enacted FOIA; ““it did not invite a judicial  
17 weighing of the benefits and evils of disclosure on a case-by-case basis.”” *Id.* at  
18 1087 (quoting *FBI v. Abramson*, 456 U.S. 615, 631 (1982)); accord *Schiffer v.*  
19 *FBI*, 78 F.3d 1405, 1411 (9<sup>th</sup> Cir. 1996); see *Minier*, 88 F.3d at 803 (similarly).  
20  
21  
22  
23  
24  
25  
26 Accordingly, “a district court lacks ‘inherent authority’ to require disclosure of  
27  
28

1 materials that are exempt under FOIA.” *Maricopa Audubon Soc’y*, 108 F.3d at  
2 1087.

3  
4 In view of the foregoing, plaintiff is mistaken when he alleges that “[t]he  
5 FOIA’s balancing test is well-settled law.” Pl. Mem. at 11. His allegation that he  
6 is entitled to an order directing the release of material notwithstanding the  
7 applicability of the statutory exemptions, *see id.* at 16, should therefore be  
8 rejected.  
9

10  
11 B. THE TECHNICAL INFORMATION CONCERNING THE BOEING  
12 747-100 MAY BE WITHHELD PURSUANT TO EXEMPTION 4  
13 BECAUSE THE INFORMATION HAS NOT BEEN RELEASED  
14 PREVIOUSLY AND BECAUSE DEFENDANTS HAVE MADE A  
15 SUFFICIENT SHOWING THAT THE RELEASE OF THE  
16 INFORMATION COULD CAUSE COMPETITIVE INJURY TO  
17 BOEING.

18 “[I]n response to a request for technical assistance,” Boeing provided  
19 certain information to the NTSB and CIA, on a voluntary basis, in support of their  
20 inquiries with respect to the explosion of TWA Flight 800. Breuhaus Decl. ¶¶ 3,  
21 4. This information dealt with “the baseline mass properties, aerodynamic and  
22 engine characteristics of the Boeing Model 747-100 aircraft.” *Id.* ¶ 5. In the  
23 judgment of Boeing, this information constitutes “trade secrets,” the “public  
24 disclosure [of which] could cause Boeing competitive harm.” *Id.* Accordingly,  
25  
26  
27  
28

1 the CIA has relied on FOIA Exemption 4 to withhold the information. Bur. Decl.  
2 ¶¶ 33-36.

3  
4 Plaintiff challenges the withholding of the information on two grounds.  
5 First, he alleges that certain “Boeing-supplied data” was released in the “NTSB’s  
6 Flight Path study.” Pl. Mem. at 17. However, the specific information that  
7 plaintiff identifies has not been withheld by the CIA. Koch Decl. ¶ 19.<sup>1</sup>

8  
9 Second, plaintiff alleges that defendants have not shown that the release of  
10 the withheld information could cause competitive injury to Boeing. Pl. Mem. at  
11 17. This allegation relies on the affidavit of Brett M. Hoffstadt. *Id.* For two  
12 reasons, the reliance that plaintiff places on that affidavit is misplaced.  
13

14  
15 First, Mr. Hoffstadt alleges the existence of certain computer software  
16 programs involving computational fluid dynamics (CFD) that can take “the three-  
17 dimensional geometry of arbitrary aircraft configurations \* \* \* and calculate the  
18 airflow, pressure, forces, and moments of such shapes in arbitrary flight  
19 conditions”; that one such program is VSAERO, a product of Analytical Methods,  
20  
21

22  
23  
24 <sup>1</sup>Where, as here, “[a] reply affidavit merely responds to matters placed in  
25 issue by the opposition brief and does not spring upon the opposing party new  
26 reasons for the entry of summary judgment, reply papers – both briefs and  
27 affidavits – may properly address those issues.” *Beck v. Univ. of Wis. Bd. of  
28 Regents*, 75 F.3d 1130, 1134 n.\* (7<sup>th</sup> Cir. 1996) (quoting *Baugh v. City of  
Milwaukee*, 823 F. Supp. 1452, 1457 (E.D. Wis. 1993)).

1 Inc. (AMI); and that, for a fee, "AMI provides the geometry of a Boeing 747-200  
2 and a 747-300 aircraft for use with VSAERO." Hoffstadt Aff. ¶¶ 4, 6.

3  
4 Accordingly, Mr. Hoffstadt alleges that the information that the CIA has withheld  
5 has already entered the public domain, and has done so with the consent or  
6 acquiescence of Boeing. *See id.* ¶ 8.

7  
8 These allegations are addressed and refuted by Richard S. Breuhaus, Chief  
9 Engineer of Air Safety for Boeing. Expanding on the statements made in his  
10 initial declaration, Mr. Breuhaus says:

11  
12 7. Mr. Hoffstadt's belief that CFD models are essentially  
13 equivalent to actual 747 baseline mass properties, aerodynamic and  
14 engine characteristics is woefully mistaken. As explained in my  
15 initial Declaration[], the Records [at issue in this case] are not CFD  
16 program outputs. Contrary to his belief, even state-of-the art CFD  
17 programs cannot produce aerodynamic data to the level of accuracy  
18 required for all of the commercial purposes for which Boeing and  
19 third parties use the data presented in or derivable from the Records.  
20 Boeing verifies its preliminary CFD information using aircraft models  
21 in a wind tunnel and, contrary to Mr. Hoffstadt's assertion, Boeing  
22 continues to make extensive use of wind tunnels. The wind tunnel

1 results are adjusted for scale effects and aeroelastic differences, and  
2 are then verified through actual flight testing. Boeing then extracts  
3 the aircraft's aerodynamic characteristics from the flight test data.  
4

5 8. While Boeing has released certain airplane geometry  
6 information and a limited amount of wind tunnel data in the past  
7 without restriction, the information is limited to partial model  
8 configurations without the tail of the aircraft and does not represent a  
9 configuration of the complete aircraft. In addition, the wind tunnel  
10 data encompasses a limited range of flight[] conditions (e.g. Mach  
11 number and angle of attack). Neither the geometry information nor  
12 the wind tunnel data include modeling of the aeroelastic effects of the  
13 Boeing Model 747-100 aircraft. Further, Boeing provides such  
14 information only in very limited circumstances.  
15  
16  
17  
18

19 9. The CFD model licensed by AMI and discussed by Mr.  
20 Hoffstadt has not been validated by flight testing or comprehensive  
21 wind tunnel testing. To the best of our knowledge and belief, CFD  
22 models typically have an error factor of 5 - 30 percent (compared to  
23 the actual in-flight airplane characteristics) depending upon the factor  
24 at issue. If one developed a simulator based upon the CFD model  
25  
26  
27  
28

1 discussed by Mr. Hoffstadt and without validation using wind tunnel  
2 and flight test data, the Federal Aviation Administration would not  
3 certify that flight simulator.  
4

5 2<sup>nd</sup> Breuhaus Decl. ¶¶ 7-9.

6 Second, Mr. Hoffstadt alleges that the release of the withheld information  
7  
8 “will most likely have zero to negligible impact on the market value, competitive  
9 advantage, or sole source position of Boeing and its subsidiaries in relation to the  
10 747 Classic simulator data package, simulators, and related services.” Hoffstadt  
11 Aff. ¶ 44. This allegation is likewise refuted by Mr. Breuhaus. Disagreeing with  
12 Mr. Hoffstadt that “the flight information in the Records has little commercial  
13 value to Boeing,” Mr. Breuhaus says:  
14  
15

16 My initial Declaration explained that Boeing offers a variety of goods  
17 and services to the owners and operators of the 501 747 Classic  
18 aircraft that are currently available for service and widely used  
19 throughout the world. Further, Boeing is currently working on the  
20 design of a 747 Large Cargo Freighter and the 747 Advanced. While  
21 these new 747 models will certainly include many features not  
22 previously available, it is also true that they will include portions of  
23 the original 747 design.  
24  
25  
26  
27  
28

1 2d Breuhaus Decl. ¶¶ 10, 12.

2 To justify the withholding of records under Exemption 4, the government  
3 must show “a likelihood of substantial competitive injury if the information were  
4 released.” *Lion Raisins Inc. v. USDA*, 354 F.3d 1072, 1079 (9<sup>th</sup> Cir. 2004). In this  
5 case, the statements of Mr. Breuhaus constitute precisely such a showing.<sup>2</sup>  
6  
7

8 As a further matter, plaintiff asks that an expert be appointed to consider the  
9 appropriateness with which the CIA has withheld the Boeing information. Pl.  
10 Mem. at 9. This request should be denied. In adjudicating the validity of  
11 withholdings under Exemption 4, “[c]ourts can rely solely on government  
12 affidavits so long as the affiants are knowledgeable about the information sought  
13 and the affidavits are detailed enough to allow the court to make an independent  
14 assessment of the government’s claim.” *Lion Raisins*, 354 F.3d at 1079. In this  
15 case, Mr. Breuhaus is the Chief Engineer of Air Safety for Boeing. 2<sup>nd</sup> Breuhaus  
16  
17  
18

---

19  
20 <sup>2</sup>The D.C. Circuit has held that information “given to the Government  
21 voluntarily” should be “treated as confidential under Exemption 4 if it is of a kind  
22 that the provider would not customarily make available to the public.” *Critical*  
23 *Mass Energy Project v. NRC*, 975 F.2d 871, 872 (D.C. Cir. 1992) (en banc). The  
24 Ninth Circuit “has not yet addressed the *Critical Mass* distinction between  
25 voluntary and mandatory information.” *Frazee v. U.S. Forest Serv.*, 97 F.3d 367,  
26 372 (9<sup>th</sup> Cir. 1996). If applicable, however, *Critical Mass* would permit the  
27 information at issue in this case to be withheld. Boeing provided that information  
28 to the NTSB and CIA voluntarily, and does not disclose such information “without  
appropriate restrictions on [its] use and further disclosure.” Breuhaus Decl. ¶¶ 3,  
5.

1 Decl. ¶ 1. His declarations are “detailed enough to allow the court to make an  
2 independent assessment of the government’s claim.” *See Lion Raisins*, 354 F.3d at  
3  
4 1079. The appointment of an expert is therefore unnecessary.

5 C. THE MATERIAL WITHHELD IN ALLEGED VIOLATION OF  
6 EXEMPTION 5 HAS BEEN PROPERLY WITHHELD BECAUSE  
7 THE MATERIAL IS PREDECISIONAL.

8 The CIA analysts who studied the explosion of TWA Flight 800 “concluded  
9 that what the[] eyewitnesses saw was the Boeing 747 in various stages of crippled  
10 flight.” 2<sup>nd</sup> Bur. Decl. ¶ 6. “This conclusion was incorporated into a video  
11 produced by the CIA and shown to the public by the FBI on November 19, 1997.”  
12 *Id.* “CIA subsequently obtained additional data from the NTSB and continued to  
13 refine its analysis.” *Id.* “However, since the CIA’s conclusion – that the  
14 eyewitnesses saw the burning aircraft and not a missile – remained unchanged, a  
15 final report was not issued.” *Id.*

16  
17  
18  
19 In this case, the CIA has relied on the deliberative process privilege and  
20 Exemption 5 to withhold, in full or in part, four records created as part of the effort  
21 of the CIA to “refine its analysis” after the “additional data [was obtained] from  
22 the NTSB.” Bur. Decl. DI at 44, 56-58; *see* 2<sup>nd</sup> Bur. Decl. ¶¶ 11, 17. The CIA has  
23 treated these records as responsive to plaintiff’s request even though they are not  
24  
25  
26  
27  
28

1 records upon which the “publicly released flight path climb conclusion” was  
2 based.<sup>3</sup>

3  
4 Alleging that the above records were postdecisional, not predecisional,  
5 plaintiff challenges their withholding. Pl. Mem. at 19. Plaintiff is mistaken.  
6 “[B]oth Exemption 5 and the case law which it incorporates distinguish between  
7 predecisional memoranda prepared in order to assist an agency decisionmaker in  
8 arriving at his decision, which are exempt from disclosure, and postdecisional  
9 memoranda setting forth the reasons for an agency decision already made which  
10 are not.” *Renegotiation Bd. v. Grumman Aircraft Eng'g Corp.*, 421 U.S. 168, 184  
11 (1975). Accordingly, a record is predecisional if an agency can “identify a  
12 specific decision to which [the record] is predecisional.” *Maricopa Audubon*  
13 *Soc'y v. U.S. Forest Serv.*, 108 F.3d 1089, 1094 (9<sup>th</sup> Cir. 1997). In this case, the  
14 records at issue were prepared by the CIA to help it determine whether  
15 conclusions different from the ones portrayed in the CIA video should be reached  
16 in view of the additional information obtained from the NTSB. In view of this  
17 fact, the records are predecisional because they involve a specific and identifiable  
18  
19  
20  
21  
22

23  
24 \_\_\_\_\_  
25 <sup>3</sup>By letter dated September 13, 2005, plaintiff submitted a request to the CIA  
26 “for all records created as part of the analysis that continued after the CIA video-  
27 animation concerning the explosion of TWA Flight 800 was shown to the public.”  
28 Koch Decl. ¶ 21. The response of the CIA to the request at issue in this action  
covers this request. *Id.*

1 decision made after the video was shown to the public. Accordingly, the CIA has  
2 acted properly in withholding the records, in full or in part, pursuant to Exemption  
3  
4 5.

5 D. NO ISSUE EXISTS AS TO WHETHER THE JOB TITLES OR JOB  
6 DESCRIPTIONS OF FEDERAL EMPLOYEES MAY BE  
7 WITHHELD PURSUANT TO EXEMPTIONS 6 OR 7(C) BECAUSE  
8 NO SUCH MATERIAL HAS BEEN WITHHELD.

9 Plaintiff alleges that he “does not contest the CIA’s withholdings of the  
10 names of individuals” pursuant to Exemptions 6 or 7(C), but objects to “any  
11 redaction of an individual’s job title and job description” because “such  
12 information would tend to ‘shed light on an agency’s performance of its statutory  
13 duties.’” Pl. Mem. at 21 (quoting *U.S. Dep’t of Justice v. Reporters Comm. for*  
14 *Freedom of the Press*, 489 U.S. 749, 772-73 (1989)). Even assuming, *arguendo*,  
15 that the disclosure of such information would shed any such light – and defendants  
16 disagree that it would – the CIA has not relied on Exemption 6 or 7(C) to withhold  
17 the job title or job description of any federal employee. See Koch Decl. ¶ 20  
18 (noting the release of the phrase “Special Agent, FBI” in the one instance in which  
19 it has been withheld inadvertently). Accordingly, no issue exists in this case with  
20 respect to the correctness with which Exemptions 6 and 7(C) have been applied.  
21  
22  
23  
24  
25  
26  
27  
28

1 II. PLAINTIFF HAS NOT SHOWN THAT DEFENDANTS' MOTION FOR  
2 PARTIAL SUMMARY JUDGMENT SHOULD BE DENIED FOR  
3 REASONS OTHER THAN THE ALLEGED MISAPPLICATION OF THE  
4 STATUTORY EXEMPTIONS.

5 A. ALL NON-EXEMPT MATERIAL HAS BEEN RELEASED.

6 "[W]hen materials exempt under the FOIA contain reasonably segregable  
7 parts that are not exempt, those parts should be disclosed." *Hayden v. NSA/Cent.*  
8 *Sec. Serv.*, 608 F.2d 1381, 1388 (D.C. Cir. 1979); *see* 5 U.S.C. § 552. In this case,  
9 plaintiff challenges the sufficiency of the certification of the Information Review  
10 Officer of the Directorate of Intelligence of the CIA that "the CIA has released to  
11 Plaintiff all reasonably segregable, non-exempt information that is responsive to  
12 Plaintiff's request." Pl. Mem. at 22-23; *see* Bur. Decl. ¶ 6. However, defendants  
13 do not rely exclusively on the above certification to show that all non-exempt  
14 material has been released. To reinforce the point, they have submitted a copy of  
15 each record withheld in part by the CIA in the form in which the record was  
16 released. 2<sup>nd</sup> Bur. Decl. ¶ 8 & Ex. A. Included among these records are the two  
17 records released with the Second Buroker Declaration. *See id.* Ex. A at 280-407.  
18 As these records show on their face, the amount of material withheld by the CIA  
19 has been "minimal." *See* Bur. Decl. ¶ 25. An example is the record reproduced at  
20  
21  
22  
23  
24  
25  
26  
27  
28

1 Second Buroker Declaration, Ex. A at 19. This record consists of a page of  
2 handwritten notes. Excerpts from four lines have been withheld.

3  
4 Suggesting that *something* should have been released from the six records  
5 withheld in full, plaintiff relies on the allegation of Glen Schulze that the CIA has  
6 withheld the records "most likely because they are the critical evidentiary  
7 components which, if released to the public, would provide a sturdy foundation for  
8 citizen destruction and ridicule of the CIA TWA FL 800 work product." Schulze  
9 Aff. ¶ 84 (quoted at Pl. Mem. at 24). However, "the mere allegation of bad faith"  
10 should not 'undermine the sufficiency of agency submissions.'" *Minier*, 88 F.3d  
11 at 803 (quoting *Carter v. U.S. Dep't of Commerce*, 830 F.2d 388, 393 (D.C. Cir.  
12 1987). In this case, the allegation of Mr. Schulze that the CIA has withheld non-  
13 exempt material for improper purposes is a "mere allegation of bad faith." *See id.*  
14 Accordingly, it should not be credited by the Court.

15  
16  
17  
18  
19 **B. NO DEFICIENCY EXISTS IN THE CIA'S PRODUCTION OF**  
20 **RECORDS OR IN THE MATERIALS UPON WHICH**  
21 **DEFENDANTS RELY IN MOVING FOR PARTIAL SUMMARY**  
22 **JUDGMENT.**

23 Plaintiff alleges that the identification numbers that the CIA has assigned to  
24 the records responsive to his request are confusing and otherwise improper; that  
25 the document indexes that defendants have submitted are incomplete and  
26  
27  
28

1 inaccurate; that the set of redacted records that defendants have filed is likewise  
2 incomplete; and that the CIA has failed to produce responsive material or  
3 otherwise to account for it. Pl. Mem. at 24-28. Alleging on the basis of these  
4 allegations that the CIA has acted in bad faith, plaintiff asks that defendants be  
5 directed to file a further declaration in support of their motion for partial summary  
6 judgment. *Id.* at 27-28; *see id.* at 9, 23. No such relief is warranted. No defect  
7 exists in the identification numbers that the CIA has assigned to the responsive  
8 records; the document indexes that defendants have submitted are accurate and  
9 complete; the set of withheld records filed with the Court is likewise complete;  
10 and no merit exists to plaintiff's allegation that the CIA has failed to produce  
11 responsive material or otherwise to account for it. No impediment therefore exists  
12 to the granting of defendants' motion for partial summary judgment.  
13  
14  
15  
16  
17

18 1. NO DEFECT EXISTS IN THE IDENTIFICATION  
19 NUMBERS THAT THE CIA HAS ASSIGNED TO THE  
20 RESPONSIVE RECORDS.

21 Certain of the records withheld in part have two identification numbers: one  
22 appearing on the face of each record and one appearing in the description of the  
23 record contained in the first of defendants' two document indexes. *See Koch*  
24 *Decl.* ¶¶ 5-10 (explaining the multiple numbers). In view of this fact, plaintiff  
25 suggests that he has had difficulty identifying those records. Pl. Mem. at 24-25;  
26  
27  
28

1 *see id.* at 27. For two reasons, this allegation is unpersuasive. First, defendants  
2 have provided plaintiff with a chart showing which numbers apply to which  
3 records. *See* 2<sup>nd</sup> Bur. Decl. ¶ 8. Plaintiff admits that he possesses the chart. Pl.  
4 Mem. at 25. Second, the document indexes that defendants have provided contain  
5 the following information for each record withheld in part: number of pages,  
6 document type, and subject. *E.g.*, Buroker Decl. DI at 41. Using this information,  
7 plaintiff can determined which identification number applies to which record  
8 merely by looking at the face of each such record.

9  
10  
11  
12 Plaintiff also finds fault with the fact that a single identification number can  
13 cover a group of records; that multiple records having the same content can have  
14 separate identification numbers; that the assignment of identification numbers  
15 appears to have been “random”; and that one of the declarations upon which  
16 defendants rely misstates, because of typographical errors, the identification  
17 numbers appearing on the face of two records. Pl. Mem. at 25-27. However, none  
18 of these allegations has any significance. Records frequently appear in files as  
19 attachments to other records. Accordingly, it is not error for a single identification  
20 number to apply to a group of records. Multiple copies of the same or similar  
21 records are frequently retained in files. Accordingly, it is not error for records  
22 having the same content to have separate identification numbers. Identification  
23  
24  
25  
26  
27  
28

1 numbers are just that: identification numbers. It is not error for the numbers to be  
2 random. The declaration in which the identification numbers were misstated  
3 contained a cross reference to the copy of each record attached to the declaration.  
4 *See* 2<sup>nd</sup> Bur. Decl. ¶ 8. By looking at the copy of the cross-referenced records,  
5 plaintiff could have determined – and *did* determine – the correct identification  
6 numbers for the two records for which the numbers were misstated. *See* Pl. Mem.  
7 at 26.  
8  
9

10  
11 2. THE DOCUMENT INDEXES THAT DEFENDANTS HAVE  
12 SUBMITTED ARE ACCURATE AND COMPLETE.

13 One of defendants' document indexes describes a particular record as  
14 withheld in part instead of withheld in full. Bur. Decl. DI at 59. Because of this  
15 fact, plaintiff alleges that he could not identify the record. Pl. Mem. at 27. This  
16 allegation is without merit. The mischaracterization of the record was addressed  
17 in the second of defendants' two declarations, and the record clearly identified  
18 there. 2<sup>nd</sup> Bur. Decl. ¶ 16.  
19

20  
21 Plaintiff also alleges that certain of the records released by the CIA are not  
22 identified in either of defendants' document indexes, and that the number of pages  
23 released by the CIA does not match the number of pages identified in those  
24 indexes. Pl. Mem. at 25, 26, 28. These allegations ignore the fact that the CIA has  
25  
26  
27

1 released certain records in full. *See* Bur. Decl. ¶ 25. The sole purpose of a  
2 document index is to explain the basis for the application of the statutory  
3 exemptions to particular records. *See, e.g., Lion Raisins*, 354 F.3d at 1082. No  
4 need exists for records released in full to be listed or discussed in such indexes.  
5

6           3.     THE SET OF WITHHELD RECORDS FILED WITH THE  
7           COURT IS LIKEWISE COMPLETE.

8           Plaintiff alleges that a copy of certain of the records withheld in part has not  
9 been filed with the Court. Pl. Mem. at 26, 27. Plaintiff is mistaken. A complete  
10 copy of *every* record withheld in part has been filed with the Court. *See* Koch  
11 Decl. ¶ 22 (matching each of the records withheld in part to the copy of the  
12 records filed with the Court).  
13  
14

15           4.     NO MERIT EXISTS TO PLAINTIFF'S ALLEGATION THAT  
16           THE CIA HAS FAILED TO PRODUCE RESPONSIVE  
17           MATERIAL OR OTHERWISE TO ACCOUNT FOR IT.

18           Plaintiff alleges that “[t]he CIA claims to have produced around 100  
19 records” but has produced far fewer than that. Pl. Mem. at 27. However, the CIA  
20 alleges that it has *located* “approximately 100 responsive records,” not that it has  
21 produced them. Bur. Decl. ¶ 25. Numerous records have been referred to their  
22 agencies of origin for review and direct response to plaintiff. *See id.*  
23  
24  
25  
26  
27  
28

1 Plaintiff also finds fault with the fact that certain of the responsive records  
2 lack dates. Pl. Mem. at 27. However, records are frequently undated. The CIA  
3 would be acting improperly if it gave dates to records that did not bear them.  
4

5 Finally, plaintiff alleges that the CIA has failed to produce or otherwise  
6 account for certain responsive material that plaintiff believes to exist. This  
7 material includes certain pages allegedly removed from records otherwise released  
8 in full, and certain records alleged to exist in electronic format. Pl. Mem. at 26-28.  
9 This allegation is without merit. “[An] agency’s failure to turn up a particular  
10 document, or mere speculation that as yet uncovered documents might exist, does  
11 not undermine the determination that the agency conducted an adequate search for  
12 the requested records.” *Wilbur v. CIA*, 355 F.3d 675, 678 (D.C. Cir. 2004). In this  
13 case, plaintiff offers nothing more than speculation in alleging that responsive  
14 material exists that the CIA has neither produced nor accounted for.  
15  
16  
17  
18

19 Plaintiff believes that “that the government’s probe into the Flight 800  
20 tragedy is a study in government impropriety.” Pl. Mem. at 13. Even assuming,  
21 *arguendo*, that plaintiff is correct – and the allegation that he makes is based on a  
22 tissue of speculation and innuendo, *see id.* at 13-15 – no impropriety exists in the  
23 way that the CIA has responded to plaintiff’s FOIA request. Neither does any  
24 deficiency exist in the materials that defendants have filed in support of their  
25  
26  
27  
28

1 motion for partial summary judgment. Plaintiff's allegations to the contrary  
2 should therefore be rejected.  
3

4 CONCLUSION

5 For the foregoing reasons, defendants' motion for partial summary judgment  
6 as to the CIA should be granted.  
7

8 Dated: September 30, 2005  
9
